Information Systems professional with experience in UX/UI design, frontend development, and cross-functional collaboration. I enjoy tackling end-to-end product challenge, from early concepts and wireframes to responsive, production-ready interfaces. Skilled in translating user and business needs into practical design and technical requirements, and ensuring smooth alignment between design, development, and stakeholder priorities. I bring a structured and hands-on approach to team projects, and as an IB graduate, I'm comfortable working in multicultural environments where communication and knowledge sharing are key.

EXPERIENCE

Design Lead (Part time) 🏢 PhaseOneAI 📅 Jul. 2025 – Currently

- Leading redesign of the company's web platform in Figma and Framer, defining layout architecture and information hierarchy for improved usability:
 - Ensured responsive design practices for all platforms.
 - Fixed major errors in layer trees to improve performance and scalability for future expansion.
- Worked with building a scalable design system documenting colours, typography, spacing, best practices and a few starter components in Figma while learning token-based methods.
- Re-vectorised the logo from digital sketch to SVG in affinity designer and produced LinkedIn banner graphics for leadership to improve brand consistency across web and social channels.
- Set up Notion boards and task lists to track design work and keep the small team aligned.

IT consultant intern 🏢 The Port of Gothenburg 📅 Nov. 2023 – Jan. 2024

- Worked in a four-person team to review the port's legacy software tools and shortlist commercial alternatives that met the client's security and cost targets.
- Sketched new interface ideas in Figma and built a clickable prototype with HTML, CSS and vanilla JavaScript to as a tailored alternative.
- Delivered a written report and a short video walkthrough summarising findings, recommendations and next steps for internal stakeholders.

SKILLS

UX / UI Design and development

Data analysis, User Research, User testing, Teamwork, Wireframing, Personas, Site mapping, User flow diagrams, Prototyping, Responsive design, AB testing.

Programming

Strong in:
HTML, CSS, Javascript, Python, SQL, Flutter.

Learning:
Tailwind CSS, Three.js, Next.js, React.js, Motion, GSAP.

Design and Development Tools

Figma, Figjam, Framer, Affinity design, Affinity photo, Webflow, Tableau, Flutter, MySQL, Slack, Github, Lucid Chart, Spline, Notion, Adobe Illustrator, Adobe Lightroom, Click Up, Discord, Microsoft office.

AI Literacy

ChatGPT (All models), Claude, Cursor for workflow optimizations.

Languages

- English (Fluent),
- Swedish (Fluent),
- French (Mother-tongue).

Additional Ownership

Swedish Class B driver's License.

PORTFOLIO WORK

Moodrobe:

[Link to figma mockup.](#) / [Link to video demo](#)

- *Mid-level fidelity figma mockup, LLM enhanced Fashion discovery tool as part of a university project idea.*

BOGO: (in development) [Link to presentation](#)

- *Web-based platform allowing rental housing between tenants and landlords to connect in Gothenburg area focused on privacy and anti-discrimination design systems. Full case study and platform in development.*

More in the works...

EDUCATION

🏢 University of Gothenburg 📅 2022 - 2025

B.Sc of Science with a major in Information Systems

- Designed and built AI enhanced fitness logger using Flutter with GPTo4 API integration.
- Worked on basic machine learning and AI classification and regression projects using Keras.
- Coded base HTML frames for web development as a side project.
- Handled and constructed databases in MySQL, SQLite3 and Beekeeper studio, both side projects and backend data handling/processing.
- Creating dashboards using Tableau, utilising food waste in public sectors dataset from the Swedish municipality of Umeå
- Sketching website and system function architecture within Figma and smaller parts in LucidChart.
- Personal Portfolio in development focusing on UI UX elements, front-end development and other side projects, expected to be completed by the end of october 2025.

🏢 Katedralskolan, Lund 📅 2019-2021

IB Diploma

- Higher level Business and Management / Economics/ English studies
